GILI GEDE

Dive Sites Secret Gili Islands

Diving the Secret Gili Islands stands for gorgeous reef diving and macro fun. You will explore uncrowded and unspoiled dive sites.

Enjoy the crystal clear water with its healthy colourful soft corals in abundance and the amazing variety of macro and marine life including turtles, reef sharks, octopus, reef cuttlefish, nudibranch, pygmy seahorse, ghost pipefish and much more.

Our dive sites around the Secret Gili Islands suits for everyone, no matter if or what certification level you have. Make your holiday memorable and enjoy one of the richest marine life diversities in the Indo-Pacific.

Gili Gede (Gili Gede Wall) :

Discover various kind of shrimps like cleaner shrimp, peacock mantis shrimp or crabs and lobster while drifting along the wall in the north of Gili Gede. In the shallower part it is not uncommon to run into turtles.

Shark House

At Shark House you dive along a sunken Island, Gili Anyaran, a sandy slope with rocks covered with soft and hard corals.

Currently three baby white tip sharks and the mother shark are housing at the shark house, so the chances seeing them chilling under their rock are very good. Besides the sharks this dive side is the best site to find blue spotted sting rays, mantis shrimp, thornback boxfish, scorpion fish and much more.

Gili Rengit (Batu Putih, Wave Corner, Gili Rengit Harbour, Pantai Batu):

The macro life around Gili Rengit speaks for itself. Dive along a reef slope and enjoy healthy bright soft corals and feather stars and find nudibranch, ghost pipefish, anemone shrimps, porcelain shrimps, crabs, turtles, cuttle fish, trumpet fish and much more. Start or end your dive at Waver Corner at the Stone Tower, built with layers of different kind of hard, soft and basket corals.

Gili Layar (Gili Layar Reef, Coral Garden, Gili Layar Harbour)

Dive through a garden, along a wall and pass overhangs fully covered with different kind of bright soft corals. The stunning variety of nudibranch and other marine life such as lion fish, white mouth and giant moray eels, striped razor fish, juvenile sweet lips, porcupinefish, mappa pufferfish and schooling batfish are just marvelous. In the north reef corner of Gili Layar we have one special resident: our lovely pygmy seahorse - macro love.

Banko Banko

Located at the southwest tip of Lombok, Banko Banko is a drift dive that starts with a slowly descending plateau and continues into a deep valley, which is surrounded by large coral formations and where reef sharks and schooling mackerel are housing. In the shallower parts, you can see emperor angelfish, sweetlips and large groupers.

Stairs to Medang

This terraced reef drops in the shape of a stairway to a depth of just over 30 m. Turtles and reef fish in abundance circle on the top of the reef, with different sharks and when you are really lucky even manta rays passing by deeper.
